NEW PRODUCT RELEASE

Helping Medical Device Design Engineers Solve EMI Challenges

Nicomatic North America, based out of Warminster, PA, will be releasing a NEW product at BIOMEDevice 2017 in Boston, MA on Wednesday, May 3rd. The conference and exhibition focuses on the Medical Technology Industry; the largest MedTech gathering of its kind in the New England Area. Nicomatic's NEW product release will be unveiled by their Flat Cable & Connector Divisions Chief Engineer / New Product Development Manager, Rocco Vetro, in Booth # 452 at 12:00 PM Wednesday, May 3rd. The release of Nicomatic's new one of a kind technology will help engineers solve some of the major EMI challenges faced when designing a medical device.

Rocco Vetro, having 19 years of Mechanical Engineering Experience with Nicomatic North America and inventor of the new product will be available to answer your specific questions about your unique interconnect requirements.
